		25X1

- On 21 December 1950, it was learned that construction work in the VP school in Prora, including both the reconditioning of old buildings and excavations for the construction of new barracks buildings, had to be suspended because of adverse weather conditions. It was planned to resume the construction work with an additional 120 workers, bringing the total number of workers employed to 240. *
- Following the discharge of 25 to 30 percent of the VP students in Prora prior to late December 1950, the police now attending the school number between 500 and 600. **
